

Zürcher Theater Spektakel

14 to 31 August 2014

Street Art at the Festival 2014

General information

Street art has always been an important and popular part of the Zürcher Theater Spektakel. In order to give street art a more prominent platform, the festival introduced the open air stage Zentral with great success in 2012. This year, invited street artists are again given the possibility to present their shows on the stage at the center of the festival site. Apart from traditional street art, simple productions from the domains of physical theatre, Nouveau Cirque, puppet theatre and dance are also suitable. Find more detailed information on the conditions in the section "Off" below.

For non-curated shows there are two further locations (paved spots) and some time slots on the Zentral stage available for street performers to present their works. Check "Off Off" for more information.

There will be an info desk for street performers next to the Zentral stage, which is open daily from 16:00 hrs throughout the festival.
